Election Requirement

Examiner acknowledges Applicant's election of 2-(3,4-dichlorophenoxy)-5-fluorobenzylmethylamine as SRI compound. Examiner is also requesting the election of a specific 5HT1 compound and a specific carrier compound to complete the election of invention. Examiner is requesting the drawn chemical structures of the elected SRI and 5HT1 compounds to avoid improper search. In addition, if Applicant desires the presence of additional ingredients, Examiner is requesting that Applicant specifically name and completely define additional ingredients (usually in further comprising claims).

A telephone call was made to Attorney Bressler on 9/13/04 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
